

Geo-Loop Inc.

Compact YP 1

The leader in geothermal and water well grouting equipment.

Don't let lack of space keep you from owning a powerful piston pump grouter! Weighing in at approximately 535 pounds and measuring 36" across, 27" deep and 45" tall, the **Compact YP 1** can pump 20 GPM and pressures exceeding 400 PSI. A convenient lifting ring and the built in fork pockets make this unit a breeze to move. The **Compact YP 1** can be powered by your existing hydraulic system off your drill rig, pump truck, rig support truck, skid loader, 12 volt DC, etc. Call us today to see if the **Compact YP 1** is right for you!

Impressive power---Compact size!

Designed and built by professionals who understand *YOUR* needs.

Compact YP 1

Features:

- 5" bore, 8" stroke piston pump with one bulletproof, chrome-lined cylinder featuring hammer union construction
- 5" standard A-style piston rubber
- Pumps 0-20 gallons per minute and pressures over 400 PSI with 11 gallons per minute at 2,000 PSI hydraulic input
- Stainless steel paddle mixer with hinged lid cover
- 60 gallon stainless steel mixing tank with smooth taper cone bottom
- Lifting ring and fork lift pockets
- Durable powder coat paint finish
- Stainless steel bag platform
- 36" across, 27" deep and 45" tall
- Patent Pending
- Approximately 535 pounds

Options:

- Water fill pump with fast-fill line and high pressure rinse line package
- Hose reel

Maximum theoretical performance shown. Maximum output and pressure can not be reached simultaneously. Performance will vary depending on grout, mix design, and grout line diameter and length. Specifications and products subject to change without prior notice.
