

Geo-Loop Inc.

Model YP 2 *Your POWER*

The leader in geothermal and water well grouting equipment.

(Shown with optional water fill line and rinse line.)

Save up to 40% by using ***Your POWER*** to operate the grout pump of your dreams! Hook up **YP 2** to your own existing hydraulic system and 12 volt DC, then get ready to experience the most incredible grouting machine available today. The innovative **Geo-Loop *Your POWER*** system will pump cement, thermal-enhanced sand grouts, bentonite grouts, and almost anything else your specialized job requires with ease. Built tough enough to handle up to 50 GPM grout output and 500 PSI, connecting **YP 2** to the hydraulics you already own just makes smart business sense. Ask the professionals at Geo-Loop how to make ***Your POWER*** work for you!

Attaches quickly---Saves you money!

Designed and built by professionals who understand ***YOUR*** needs.

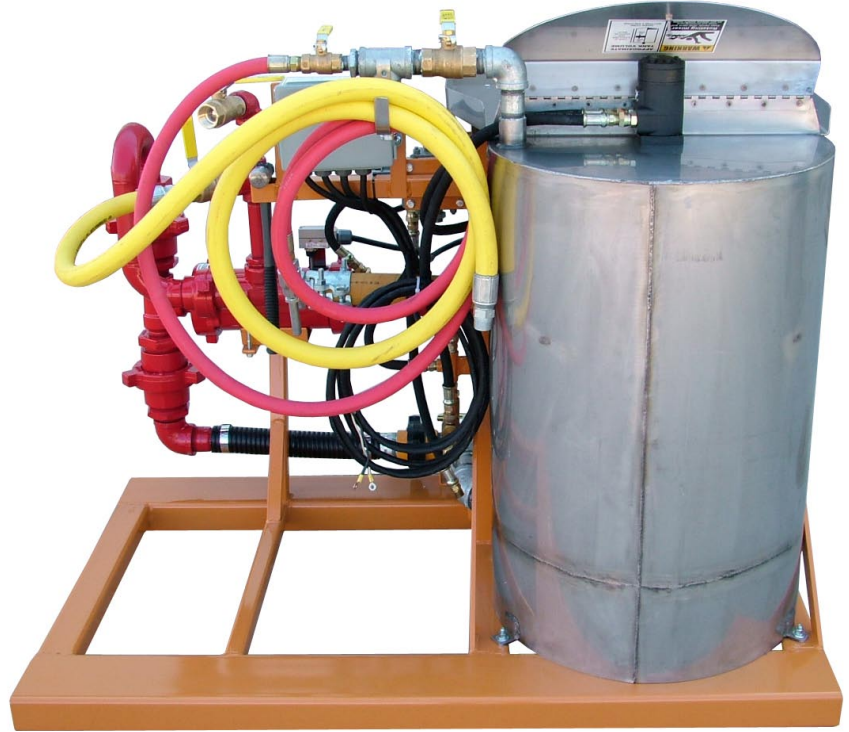

Model YP 2 *Your POWER*

Features:

- 5" bore, 8" stroke piston pump with two bulletproof, chrome-lined cylinders featuring hammer union construction
- 5" standard A-style piston rubbers
- Pumps 0-50 gallons per minute and pressures up to 500 PSI with 15 gallons per minute at 1,700 PSI hydraulic input
- Stainless steel paddle mixer with hinged lid cover
- 60 gallon stainless steel mixing tank with smooth taper cone bottom
- Full length fork lift pockets on both ends of the framework
- Durable powder coat paint finish
- Piston pump covered by the US Patent D405-454
- 59" x 36" footprint frame
- Approximately 750 pounds

Options:

- Water fill pump with fast-fill line and high pressure rinse line package
- Hose Reel

Essential and affordable, **YP 2** is designed to be powered by your existing hydraulic system off of your drill rig, pump truck, rig support truck, skid loader, etc. saving you up to 40% right off the top. Use your own fuel to operate the most powerful grouting system available today. Featuring easy access construction and full-length fork lift pockets on both ends of the framework, **YP 2** will provide you with the features you're looking for in today's market. Achieving 0 to 50 GPM and pressures up to 500 PSI, you will be amazed at the amount of work you can do each and every day using this dependable 5" bore, 8" stroke piston pump. Clean up is a snap with the easy access hammer union construction design and the smooth taper cone bottom saves you both materials and labor. **Your POWER** is the economical answer to your grouting needs!

Maximum theoretical performance shown. Maximum output and pressure can not be reached simultaneously. Performance will vary depending on grout, mix design, and grout line diameter and length. Specifications and products subject to change without prior notice.
