

Geo-Loop Inc.

Sand Auger Trailer Package

The leader in geothermal and water well grouting equipment.

The labor-saving **Geo-Loop EZ Load 2500** hopper can be easily loaded with 2,500 pounds of bulk sand or super sacks. Loading the grout mixing tank at an amazing rate of 500 pounds per minute and eliminating the messy disposal of paper bags, you will save a tremendous amount of back-breaking labor. Add in the durable combination 525 gallon stainless steel water tank and pallet table (including one 4" fill port) to make your grouting job the easiest ever. Let a loader and the specially-designed **Geo-Loop Sand Load System** do the work for you.

The ultimate in job site mobility...

Designed and built by professionals who understand **YOUR** needs.

Sand Auger Trailer Package

Features:

- Greatly reduces the manual labor of thermal-enhanced grout
- Specially designed, custom-built trailer-76" x 24'
- Sturdy 20,000 pound rating will meet your needs
- Two standard - 10,000 pound axles with brakes
- Heavy duty adjustable hitch (2 5/16" ball or pintle hitch available)
- Generous Geo-Loop EZ Load 2500 hopper holds 2,500 pounds of sand with an auger rate of approximately 500 pounds per minute
- Hopper can be loaded with ease with a loader using bulk sand or super sacks
- Durable 525 gallon stainless steel water tank and pallet table combined with one 4" fill port
- Innovative Geo-Loop grouters
- Eliminates unwanted empty sacks
- Small and large hose reels with capacities over 1,000' of 1 1/4" grout line

Maximum theoretical performance shown. Maximum output and pressure can not be reached simultaneously. Performance will vary depending on grout, mix design, and grout line diameter and length. Specifications and products subject to change without prior notice.
